They will do trimming but the City will be responsible for removing the debris. The City will be notified before any further action is taken.

City Attorney Matsey has drawn up and presented to the Mayor a final draft of a contract with Fourway Communications for antennas on the water towers. Mr. Matsey has also come up with a towing agreement that will be presented at the next Board of Works meeting.

Building Inspector, Bruce Williams is sending out letters concerning outside storage by businesses.

The Mayor is working on the ordinances concerning garbage cans at R-3 and R-4 residences. We will need to change our contract with Waste Management to cover them.

We have an ordinance that allows the MVH to go on private property to clean it up and put a lien against the property to pay for it. The ordinance is old and the charges need to be updated, so the ordinance will need updated or re-written.
